Made Only in India Mar 15 2022 What makes Darjeeling tea, Pashmina shawl, Monsooned Malabar Arabica coffee and Chanderi saree special? Why is it that some goods derive their uniqueness through their inherent linkage to a place? In a pioneering study, this book explores this intriguing question in the Indian context across 199 registered goods with geographical indications, linked with their place of origin. It argues that the origin of these goods is attributed to a distinctive ecology that brews in a particular place. The attributes of their origin further endorse their unique geographical indications through legal channels. Drawing from a variety of disciplines including geography, history, sociology, handicrafts, paintings, and textiles, the author also examines the Geographical Indications Act of 1999, and shows how it has created a scope to identify, register and protect those goods, be they natural, agricultural, or manufactured. The work presents a new perspective on the indigenous diversities and offers an original understanding of the geography and history of India. Lucid and accessible, with several illustrative maps, this book will be useful to scholars and researchers in the social sciences, environmental studies, development studies, law, trade and history.

The Made-in-India Manager Sep 21 2022 Who are Made-in-India managers? What do they do differently? Over the last fifty years, several Indians have occupied top positions in multinationals across the globe. Shantanu Narayen at Adobe, Satya Nadella at Microsoft, Padmasree Warrior at NIO and Sundar Pichai at Google- there are, today, innumerable instances of CEOs born and bred in India, helming S&P's 500 companies. What accounts for such a prominent presence of Indian professionals across the world today? In *The Made-in-India Manager*, two stalwarts of Indian business and academics examine this little-studied phenomenon and present a compelling argument: that a unique combination of factors has led Indian management thought and practices to become a 'soft power' with the potential to decisively impact global managers of tomorrow. Drawing on their long and varied experience among corporates, the authors explore: ? the deep cultural influences that engender a sharp competitive instinct and an astute business perspective; ? the circumstances that inspire a high degree of resourcefulness in challenging situations; ? the ability to 'think in English and act in Indian', which enables flexible functioning in multicultural work environments; ? and, importantly, how today's young managers can build on these advantages and bring to the table their own generational learning, attitudes and capabilities to ensure future success. Thought-provoking and provocative, this fascinating treatise takes a long view of the Indian professional's path to definitive career success, and makes for compulsory reading for every management practitioner.

Made in India Jan 25 2023 As a child, Biddu dreamt of going west and making it big as a composer. At the age of sixteen, he formed a band and started playing in a cafe in Bangalore, his home town. At eighteen, he was part of a popular act at Trinca's, a nightclub in Calcutta devoted to food, wine and music. At nineteen, he had college students in Bombay dancing to his music. In his early twenties, he left the country and ended up hitchhiking across the Middle East before arriving in London with only the clothes on his back and his trusty guitar. What followed were years of hardship and struggle but also great music and gathering fame. From the nine million selling "Kung Fu Fighting" to the iconic youth anthem of "Made in India" and the numerous hits in between. Biddu's music made him a household name in India and elsewhere. In this first public account of all that came his way: the people, the events, the music tours and companies Biddu writes with a gripping sense of humor about his remarkable journey with its fairy tale ending. Charming, witty, and entirely likable, Biddu is a man you are going to enjoy getting to know.

These events demonstrate the material, political, and cultural contexts within which postcolonial subjects negotiate their lived experiences within moments of decolonization and recolonization.

Made in India Dec 24 2022 There's more to Milind Soman than meets the eye (although, as his legions of female fans will agree, what meets the eye is pretty delish). Combining in himself the passion of an entrepreneur, the mind of a nerd, the discipline of an athlete, the curiosity of an explorer, the heart of a patriot and the soul of a philosopher, Milind has made the stunning-and apparently seamless- transition from champion swimmer to supermodel to actor to extreme sportsperson to women's fitness activist, enabler and proselytiser, all in one lifetime. How does he do it? What makes him tick? On the twenty-fifth anniversary of 'Made in India', the breakout pop music video of the 1990s that captured the apna-time-aagaya zeitgeist of post-liberalization India and made him the nation's darling across genders and generations, Milind talks about his fascinating life-controversies, relationships, the breaking of vicious habits like smoking, alcohol, rage, and more-in a freewheeling, bare-all (easy, ladies-we're talking soul-wise!) memoir. Co-authored with bestselling author Roopa Pai, MADE IN INDIA is a rare glimpse into the mind and heart of a very unusual man that will leave you thoughtful, awed and inspired.

Gandhi Before India Jul 27 2020 Here is the first volume of a magisterial biography of Mohandas Gandhi that gives us the most illuminating portrait we have had of the life, the work and the historical context of one of the most abidingly influential—and controversial—men in modern history. Ramachandra Guha—hailed by Time as “Indian democracy’s preeminent chronicler”—takes us from Gandhi’s birth in 1869 through his upbringing in Gujarat, his two years as a student in London and his two decades as a lawyer and community organizer in South Africa. Guha has uncovered myriad previously untapped documents, including private papers of Gandhi’s contemporaries and co-workers; contemporary newspapers and court documents; the writings of Gandhi’s children; and secret files kept by British Empire functionaries. Using this wealth of material in an exuberant, brilliantly nuanced and detailed narrative, Guha describes the social, political and personal worlds inside of which Gandhi began the journey that would earn him the honorific Mahatma: “Great Soul.” And, more clearly than ever before, he elucidates how Gandhi’s work in South Africa—far from being a mere prelude to his accomplishments in India—was profoundly influential in his evolution as a family man, political thinker, social reformer and, ultimately, beloved leader. In 1893, when Gandhi set sail for South Africa, he was a twenty-three-year-old lawyer who had failed to establish himself in India. In this remarkable biography, the author makes clear the fundamental ways in which Gandhi’s ideas were shaped before his return to India in 1915. It was during his years in England and South Africa, Guha shows us, that Gandhi came to understand the nature of imperialism and racism; and in South Africa that he forged the philosophy and techniques that would undermine and eventually overthrow the British Raj. *Gandhi Before India* gives us equally vivid portraits of the man and the world he lived in: a world of sharp contrasts among the coastal culture of his birthplace, High Victorian London, and colonial South Africa. It explores in abundant detail Gandhi’s experiments with dissident cults such as the Tolstoyans; his friendships with radical Jews, heterodox Christians and devout Muslims; his enmities and rivalries; and his often overlooked failures as a husband and father. It tells the dramatic, profoundly moving story of how Gandhi inspired the devotion of thousands of followers in South Africa as he mobilized a cross-class and inter-religious coalition, pledged to non-violence in their battle against a brutally racist regime. Researched with unequaled depth and breadth, and written with extraordinary grace and clarity, *Gandhi Before India* is, on every level, fully commensurate with its subject. It will radically alter our understanding and appreciation of twentieth-century India’s greatest man.

India Unbound Sep 28 2020 India today is a vibrant free-market democracy, a nation well on its way to overcoming decades of widespread poverty. The nation’s rise is one of the great international stories of the late twentieth century, and in *India Unbound* the acclaimed columnist Gurcharan Das offers a sweeping economic history of India from independence to the new millennium. extraordinary growth. Das traces these developments and tells the stories of the major players from Nehru through today. As the former CEO of Procter & Gamble India, Das offers a unique insider's perspective and he deftly interweaves memoir with history, creating a book that is at once vigorously analytical and vividly written. Princestan Nov 11 2021 In the run-up to independence, a vile plan was devised by a handful of powerful princes to not join either India or Pakistan. The plan was led by the chancellor of the chamber of princes, Nawab of Bhopal, who was operating under the patronage of Mohd. Ali Jinnah, Lord Wavell and British Prime Minister Winston Churchill. The idea was to create a Third Dominion called Princestan where the 565 princely states would stay outside the ambit of the two free states and retain paramountcy under the aegis of the departing British. The success of such a malevolent plan would have made the newly independent nation unstable and vulnerable.

An English Made in India Jul 19 2022 The book is an entertaining narrative about the myriad Indianisms to be found in the English used by a large percentage of Indians; the growing importance of Indian English in a world of many Englishes; the ongoing tussle between the elite who speak the King's English and those who speak in their mother tongue or mother-tongue-accented English; the effect of the IT boom on global English; and the changing attitudes of young Indians towards a language introduced by the Raj hundreds of years ago.

Indian-made Jul 07 2021 "In works of silver and wool, the Navajos have established a unique brand of American craft. And when their artisans were integrated into the American economy during the late nineteenth century, they became part of a complex cultural and economic framework in which their handmade crafts conveyed meanings beyond simple adornment." "Bsumek unravels the layers of meaning that surround the branding of "Indian-made." When Navajo artisans produced their goods, collaborating traders, tourist industry personnel, and even ethnologists created a vision of Navajo culture that had little to do with Navajos themselves. And as Anglos consumed Navajo crafts, they also consumed the romantic notion of Navajos as "primitives" perpetuated by the marketplace. These processes of production and consumption reinforced each other, creating a symbiotic relationship and influencing both mutual Anglo-Navajo perceptions and the ways in which Navajos participated in the modern marketplace." "Ultimately, Bsumek shows that the sale of Indian-made goods cannot be explained solely through supply and demand. It must also reckon with the multiple images and narratives that grew up around the goods themselves, integrating consumer culture, tourism, and history to open new perspectives on our understanding of American Indian material culture."--BOOK JACKET.

Clemente Made in India Apr 04 2021 A visual journey through Francesco Clemente's images of India, collected over four decades. Francesco Clemente first travelled to India in 1973 in search of "somewhere else". The acutely contemporary world of India that he encountered, whose antiquity had been transformed and reinvented by a lively popular culture, enchanted him. Over the next four decades, and across numerous trips, Clemente journeyed through the ever-mutating cartography of Indian visual culture - temple exteriors, shop signs, calendars, advertisements, graffiti, and more - building up an archive of images, both in his memory and in his notebooks filled with hundreds of drawings, lying latent over decades, coalescing, talking to each other, eventually surfacing in his work in another incarnation, another context. -- Publisher's blurb.

Reluctant Billionaire Oct 30 2020 NOMINATED FOR TATA LITERATURE LIVE AWARDS AND SHORTLISTED FOR GAJA CAPITAL BEST BUSINESS BOOK PRIZE The book is an untold human story of an enterprise and its creator, Dilip Shanghvi, who raced ahead of Mukesh Ambani to become the richest Indian in 2015 Shanghvi is one of the most interesting and least understood business minds of India whose journey has been shrouded in mystery because of his reticence. The book reveals the riveting story of the fiercely intense personality that lies beneath his calm demeanour. Based on interviews with over 150 friends, family members, rivals, former aides and Shanghvi himself, it traces his transformation from a quiet, curious child working in his father's small shop to an astute strategist, who built India's largest pharma company, Sun Pharma, despite being untrained in science. The tale unravels his contrarian and controversial bets that made Sun a global force, and him a 'turn-around' artist. It is also about the friends and family Shanghvi started his company with, the hurt and emotional conflicts surrounding their separation, and how Shanghvi staked his closest relationships to professionalize Sun. This book is an extraordinary story of an ordinary man, who chooses to stay anti-famous. He would rather have his face unrecognized, his story untold. But at a time, when a billion dreams are simmering in an aspiring India, this tale is for everyone who has once had a secret dream, an insanely bold one.

It is set in the larger context of the exceptional growth of the church in the non-Western world during the twentieth century, which has been characterized by a diversity of localized cultural expressions. It recognizes that the center of Christian influence numerically and theologically is shifting southward to Africa, Latin America, and Asia. It affirms the reality that wherever the gospel goes, it takes root in the local culture.

A History of Buddhism in India and Tibet Dec 20 2019 "This volume contains the first full English translation of a thirteenth-century history of Buddhism in India and Tibet. That means most of all a complete life of the Buddha with the history of his renunciate order and of early Buddhist authors in India. Midway through, the action moves to Tibet where there is an emphasis on the Tibetan ruling dynasty, the translators of Buddhist texts, and the lineages that transmitted doctrinal understanding, meditative insights, and practical realization. It concludes with a pessimistic account of the demise of the monastic order followed by optimism with the advent of the future Buddha Maitreya. The composer of this remarkably ecumenical Buddhist history remains anonymous but was likely a follower of rare lineages of Dzogchen and Zhijé teachings. He put together some of the most important early sources on the Tibetan imperial period that had been preserved in his times and supplies the best witnesses we have for many of them in our own times"--

Indian Sun Dec 12 2021 The definitive biography of Ravi Shankar, one of the most influential musicians and composers of the twentieth century, told with the cooperation of his estate, family, and friends For over eight decades, Ravi Shankar was India's greatest cultural ambassador. He was a groundbreaking performer and composer of Indian classical music, who brought the music and rich culture of India to the world's leading concert halls and festivals, charting the map for those who followed in his footsteps. Renowned for playing Monterey Pop, Woodstock, and the Concert for Bangladesh--and for teaching George Harrison of The Beatles how to play the sitar--Shankar reshaped the musical landscape of the 1960s across pop, jazz, and classical music, and composed unforgettable scores for movies like Pather Panchali and Gandhi. In *Indian Sun: The Life and Music of Ravi Shankar*, writer Oliver Craske presents readers with the first full portrait of this legendary figure, revealing the personal and professional story of a musician who influenced--and continues to influence--countless artists. Craske paints a vivid picture of a captivating, restless workaholic--from his lonely and traumatic childhood in Varanasi to his youthful stardom in his brother's dance troupe, from his intensive study of the sitar to his revival of India's national music scene. Shankar's musical influence spread across both genres and generations, and he developed close friendships with John Coltrane, Philip Glass, Yehudi Menuhin, George Harrison, and Benjamin Britten, among many others. For ninety-two years, Shankar lived an endlessly colorful and creative life, a life defined by musical, emotional, and spiritual quests--and his legacy lives on. Benefiting from unprecedented access to Shankar's archives, and drawing on new interviews with over 130 subjects--including his second wife and both of his daughters, Norah Jones and Anoushka Shankar--*Indian Sun* gives readers unparalleled insight into a man who transformed modern music as we know it today.
