Revisiting India's Past is Commemoration Volume presented to Prof. Vijay Kumar Thakur, He was a renowned Historian in India, on his Eighty two birth anniversary (15th July 1941). These articles are in other way serve as garland of flowers to decor Prof. Vijay Kumar Thakur. A great scholar in History, Buddhism, Epigraphy and Culture. There are more than 30 articles shedding light on Indian Historical studies. This prestigious volume contains a wide spectrum of research articles covering History, feudalism, science and technology, Epigraphy and Numismatics, Buddhism, Historiography, Tourism, Modern History and Trade, Economic history, Folklore, literature and culture. This volume containing a good collection of research papers contributed by renowned authors will serve as an important source of information and reference book for research students and teachers as well. Incidentally, this volume also highlights the love and affection of Prof. Vijay

Kumar Thakur enjoys in the intellectual world. At the end of the twentieth century more people are living into their seventies, eighties, nineties and beyond, a process expected to continue well into the next millennium. The twentieth century has achieved what people in other centuries only dreamed of: many can now expect to survive to old age in reasonably good health and can remain active and independent to the end, in contrast to the high death rate, ill health and destitution which affected all ages in the past. Yet this change is generally greeted not with triumph but with alarm. It is assumed that the longer people live, the longer they are ill and dependent, thus burdening a shrinking younger generation with the cost of pensions and health care. It is also widely believed that 'the past' saw few survivors into old age and these could be supported by their families without involving the taxpayer. In this first survey of old age throughout English history, these assumptions are challenged. Vivid pictures are given of the ways in which very large numbers of older people lived often vigorous and independent lives over many centuries. The book argues that old people have always been highly visible in English communities, and concludes that as people live longer due to the benefits of the rise in living standards, far from being 'burdens' they can be valuable contributors to their family and friends. Great Powers and World Order encourages critical thinking about the nature of world order by presenting the historical information and theoretical concepts needed to make projections about the global future. Charles W. Kegley and Gregory Raymond ask students to compare retrospective cases and formulate their own hypotheses about not only the causes of war, but also the consequences of peace settlements. Historical case studies open a window to see what strategies for constructing world order were tried before, why one course of action was chosen over another, and how things turned out. By moving back and forth in each case study between history and theory, rather than treating them as separate topics, the authors hope to situate the assumptions, causal claims, and policy prescriptions of different schools of thought within the temporal domains in which they took root, giving the reader a better sense of why policy makers embraced a particular view of world order instead of an alternative vision. Vol. 6, no. 4; The Prather memorial. California Dreaming is about my journey to America for higher studies in 1961 and my difficult first 2 years. On the way I had a wonderful shipboard romance with Kavita, a tall Indian woman. We parted in Italy and we were heartbroken. Before we could meet in America she had to rush back to India because Grandmother had a heart attack. Later she visited with her mother. The highlight was her trying on a bikini. What a beautiful sight--voluptuous breasts, curvy body, long legs! It was huge turn-on and later we enjoyed passionate lovemaking. Love of my life could not stay and had to return to India. I wondered if I would see her again. College in Indiana was great, but I could not handle snow and California was calling! Driving there in an old car was adventurous. Discrimination was high against a turbaned Sikh. No decent jobs were available to me. Finally I got a job at a packinghouse. It was hard keeping my head above water while studying at Fresno State. Where is Kavita? Are we destined to be together? This unique book explores the lives and work of nearly 300 New Jersey women from the Colonial period to the present century. Included are biographies of notable, often nationally known individuals, as well as less celebrated people, whose vibrant personal stories illustrate the richness of women's experiences in New Jersey—and, really, in America—from 1600 to the present. Researched, written and illustrated by The Women's Project of New Jersey, this volume both recovers and re-tells the life stories of women who have helped shape our world. Past and Promise is a long-overdue celebration of the accomplishments of these individuals who succeeded, often against overwhelming odds. Past and Promise: Lives of New Jersey Women incorporates an inclusive view of history that understands the past as the history of all of the people, not merely those who held a monopoly of power. As such this work contains biographies of artists, activists, entertainers, scientists, scholars, teachers, factory and agricultural workers, businesswomen, social engineers, and community builders. This easy-to-use and beautifully presented volume is indexed, and full of illustrations. The biographies are arranged alphabetically within four sections covering the following time periods: 1600-1807, 1808-1865, 1866-1920, and 1921 to the present. Each section is introduced by a historical overview, and each biographical entry includes a brief bibliography for further reading and research. This unique and very readable collection of biographies belongs in every public and personal library and deserves a wide audience of general readers from high school age through college and beyond. This open access book examines the history and role of money. Money is often defined in terms of three interrelated functions: as a medium of exchange, store of value and unit of account. Researchers frequently discuss the first two functions, but tend to ignore unit of account. This book focuses on how a unit of account or denomination can be defined and can be derived from the monetary system. In the case of paper money and coins, we know how to determine the denomination of money based on the problem of the least number of weights defined by Bâchet and proved by Hardy and Wright (1960). However, in the case of digital or cryptocurrency, denomination may not matter because digital or cryptocurrency uses a wallet that is essentially denomination free: a wallet can contain any amount of currency without upper and lower limits. When people talk about the stablecoin, i.e. the stable price of digital and cryptocurrency with the major legal tender, they take a unit of account or denomination of digital or cryptocurrency as given. This arrangement destroys the nature of denomination free or decentralized autonomy as it were. Exploring how we can consolidate with these two views of denomination, this book will appeal to anyone interested in creating new digital or cryptocurrencies. It also serves as a textbook on central bank digital currency. This book offers sociological and structural descriptions of language varieties used in over 2 dozen Jewish communities around the world, along with synthesizing and theoretical chapters. Language descriptions focus on historical development, contemporary use, regional and social variation, structural features, and Hebrew/Aramaic loanwords. The book covers commonly researched language varieties, like Yiddish, Judeo-Spanish, and Judeo-Arabic, as well as less commonly researched ones, like Judeo-Tat, Jewish Swedish, and Hebraized Amharic in Israel today. Interpersonal Communication, Fourth Edition empowers you to become a more confident communicator by providing you with both the knowledge and the practical skills you need to make effective communication choices in today's rapidly changing and technologically advanced society. Rather than "telling" you how to communicate, authors Richard L. West and Lynn H. Turner offer a toolbox of key skills so you can

actively choose and experiment with strategies appropriate for a given situation. Filled with realistic examples and scenarios that reflect the diversity and interactions of today's students, this practical text makes clear connections among theory, skills, and the life situations we all encounter on a daily basis. New to the Fourth Edition: New personal reflection questions for the IPC Careers and IPC Around Us features help you discover the relevance of interpersonal communication in your everyday life. A new applied theory feature, IPC Praxis, shows you how to apply the theories outlined in the chapter narrative to your life experiences. New chapter wrap-ups, key questions for application, and communication application tests provide you with opportunities to assess what you have learned in the chapter. SAGE edge provides you with helpful tools, including eFlashcards, practice quizzes, and more, in one easy-to-use online environment. "Here, my previous edition of Viruses, Plagues, & History is updated to reflect both progress and disappointment since that publication. This edition describes newcomers to the range of human infections, specifically, plagues that play important roles in this 21st century. The first is Middle East Respiratory Syndrome (MERS), an infection related to Sudden Acute Respiratory Syndrome (SARS). SARS was the first new-found plague of this century. Zika virus, which is similar to yellow fever virus in being transmitted by mosquitos, is another of the recent scourges. Zika appearing for the first time in the Americas is associated with birth defects and a paralytic condition in adults. Lastly, illness due to hepatitis viruses were observed prominently during the second World War initially associated with blood transfusions and vaccine inoculations. Since then, hepatitis virus infections have afflicted millions of individuals, in some leading to an acute fulminating liver disease or more often to a life-long persistent infection. A subset of those infected has developed liver cancer. However, in a triumph of medical treatments for infectious diseases, pharmaceuticals have been developed whose use virtually eliminates such maladies. For example, Hepatitis C virus infection has been eliminated from almost all (>97%) of its victims. This incredible result was the by-product of basic research in virology as well as cell and molecular biology during which intelligent drugs were designed to block events in the hepatitis virus life-cycle"-- Landscapes, Sources and Intellectual Projects of the West African Past outlines new directions in the historiography of West Africa. Its chapters explore new trends across regional and disciplinary fields with a focus on how political conjunctures influence source production and circulation. The Advocate is a lesbian, gay, bisexual, transgender (LGBT) monthly newsmagazine. Established in 1967, it is the oldest continuing LGBT publication in the United States. Discusses baseball's history and the game's relationship to American society from the 1850s until the present day.
