Featuring a diverse range of modern artists and their works, *Modern Art Explorer* takes young readers on an undercover adventure to discover the stories behind famous works. Witty and brilliantly illustrated, *Modern Art Explorer* is an approachable introduction to modern art for children. Featuring Henri Matisse, Pablo Picasso, Frida Kahlo, and many more, this book brings readers the stories behind thirty famous artworks. Young readers will see art as something real, something born out of ideas, inspiration, human lives, world events, and the materials artists use. *Modern Art Explorer* goes undercover and turns each work of art inside out, providing children with an ability to understand what each piece is all about. Buoyed by award-winning illustrator Serge Bloch's cheeky and energetic illustrations, this book prompts children to think about how art comes into being and to take a deeper look at the ideas within each work. Written with a fresh and current voice, this book is a fun and illuminating guide to modern art for children. Originally published in 1968, Karsten Harries's classic work provides a philosophical understanding of how modern art differs fundamentally from the art of earlier periods. * An exceptional exhibition catalog, a dive into the 19th and 20th century painting* Gathers 130 masterpieces togetherThe Fondation Louis Vuitton's unprecedented 2016 exhibition brought together 130 masterpieces, among the most iconic of the collection created in Moscow by the great Russian art patron, Sergei Shchukin. From *Le Déjeuner sur l'herbe* (1866) by Claude Monet, the *Mardi gras* (1888-90) by Paul Cézanne, Paul Gauguin's Tahitian odalisque *Eh quoi, tu es jalouse?* (1892), the luminescent panel *L'Atelier du peintre* (1911) by Henri Matisse, to conclude with Pablo Picasso's *Trois femmes* (1908), the magnificence of Shchukin's collection is exhibited here. Extended by a group of some 30 major works from the Russian avant-gardes, including *Counter Relief* (1916) by Vladimir Tatlin, *Green Stripe* (1917) by Olga Rozanova, and Kazimir Malevich's monochrome painting, *Black Suprematie Square* (1929), *Icons of Modern Art* covers the extreme breadth of this journey through 19th- and 20th-century creation. The presentation of these exceptional works, where our collective gaze comes together, constitutes an exemplary "painting lesson." For skeptics, art lovers, and the millions of us who visit art galleries every year—and are confused—*What Are You Looking At?* by

former director of London's Tate Gallery Will Gompertz is a wonderfully lively, accessible narrative history of Modern Art, from Impressionism to the present day. What is modern art? Who started it? Why do we either love it or loathe it? And why is it such big money? Join BBC Arts Editor Will Gompertz on a dazzling tour that will change the way you look at modern art forever. From Monet's water lilies to Van Gogh's sunflowers, from Warhol's soup cans to Hirst's pickled shark, hear the stories behind the masterpieces, meet the artists as they really were, and discover the real point of modern art. You will learn: not all conceptual art is bollocks; Picasso is king (but Cézanne is better); Pollock is no drip; Dali painted with his moustache; a urinal changed the course of art; why your 5-year-old really couldn't do it. Refreshing, irreverent and always straightforward, *What Are You Looking At?* cuts through the pretentious art speak and asks all the basic questions that you were too afraid to ask. Your next trip to the art gallery is going to be a little less intimidating and a lot more interesting. With his offbeat humor, down-to-earth storytelling, and flair for odd details that spark insights, Will Gompertz is the perfect tour guide for modern art. His book doesn't tell us if a work of art is good; it gives us the knowledge to decide for ourselves. Since it first appeared in 1968, *History of Modern Art* has emphasized the unique formal properties of artworks, and the book has long been recognized for the acuity of its visual analysis. Featuring 40 exercises, 127 workouts, and a full 15-week program, *The Modern Art of High Intensity Training* offers a visually stunning presentation of all things high intensity. Along with covering the five principles of high intensity training, its eye-catching illustrations convey the strength, power, and beauty of the movements. Volume covers the *Collection of Prints and Illustrated Books*, not the collection of artists' books. Today the Museum of Modern Art is widely recognized for establishing the canon of modern art; yet in its early years, the museum considered modern art part of a still unfolding experiment in contemporary visual production. By bracketing MoMA's early history from its later reputation, this book explores the ways the Museum acted as a laboratory to set an ambitious agenda for the exhibition of a multidisciplinary idea of modern art. Between its founding in 1929 and its 20th anniversary in 1949, MoMA created the first museum departments of architecture and design, film, and photography in the country, marshaled modern art as a political tool, and brought consumer culture into a versatile yet institutional context. Encompassing 14 essays that investigate the diversity of modern art, this volume demonstrates how MoMA's programming shaped a version of modern art that was not elitist but fundamentally intertwined with all levels of cultural production. This book demonstrates that numerous prominent artists in every period of the modern era were expressing spiritual interests when they created celebrated works of art. This magisterial overview insightfully reveals the centrality of an often denied and misunderstood element in the cultural history of modern art. "What is The Museum of Modern Art? For some it is a cherished sanctuary, for others an idea concretized through the art it has collected and exhibited, and for others still an educational laboratory where challenging and difficult art is confronted, measured, and understood. Founded in 1929 in small temporary quarters at 730 Fifth Avenue and now housed in a building that occupies almost half a city block at 11 West 53rd Street, The Museum of Modern Art, New York is on the cusp of a massive renovation and expansion that will see it into the 21st century. The Museum is a repository of masterpieces of modern and contemporary art, 325 of the best of which are reproduced here, accompanied by short, incisive, and intelligent texts."--Amazon.ca As public interest in modern art continues to grow, as witnessed by the spectacular success of Tate Modern and the Bilbao Guggenheim, there is a real need for a book that will engage general readers, offering them not only information and ideas about modern art, but also explaining its contemporary relevance and history. This book achieves all this and focuses on interrogating the idea of 'modern' art by asking such questions as: What has made a work of art qualify as modern (or fail to)? How has this selection been made? What is the relationship between modern and contemporary art? Is 'postmodernist' art no longer modern, or just no longer modernist - in either case, why, and what does this claim mean, both for art and the idea of 'the modern'? Cottington examines many key aspects of this subject, including the issue of controversy in modern art, from Manet's *Dejeuner sur L'Herbe*

(1863) to Picasso's *Les Femmes d'Alger*, and Tracey Emin's *My Bed*, (1999); and the role of the dealer from the main Cubist art dealer Kahnweiler to Charles Saatchi. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable. A comprehensive and fascinating look at the history of the Museum of Modern Art's Architecture and Design Department under the leadership of the influential curator Arthur Drexler. Arthur Drexler (1921-1987) served as the curator and director of the Architecture and Design Department at the Museum of Modern Art (MOMA) from 1951 until 1986—the longest curatorship in the museum's history. Over four decades he conceived and oversaw trailblazing exhibitions that not only reflected but also anticipated major stylistic developments. Although several books cover the roles of MoMA's founding director, Alfred Barr, and the department's first curator, Philip Johnson, this is the only in-depth study of Drexler, who gave the department its overall shape and direction. During Drexler's tenure, MoMA played a pivotal role in examining the work and confirming the reputations of twentieth-century architects, among them Frank Lloyd Wright, Le Corbusier, Richard Neutra, Marcel Breuer, and Ludwig Mies van der Rohe. Exploring unexpected subjects—from the design of automobiles and industrial objects to a reconstruction of a Japanese house and garden—Drexler's boundary-pushing shows promoted new ideas about architecture and design as modern arts in contemporary society. The department's public and educational programs projected a culture of popular accessibility, offsetting MoMA's reputation as an elitist institution. Drawing on rigorous archival research as well as author Thomas S. Hines's firsthand experience working with Drexler, *Architecture and Design at the Museum of Modern Art* analyzes how MoMA became a touchstone for the practice and study of midcentury architecture. He was born to privilege and sought the world of art. She lived at the center of that world—a working artist encouraged by the famous artists in her extended family. Together, Duncan Phillips and Marjorie Acker Phillips founded The Phillips Collection in Washington, D.C., the first museum of modern art in America. It opened in the grand Phillips family home in 1921, eight years before New York City's Museum of Modern Art and only a few weeks after they wed. Duncan took the lead in developing the collection and showcasing it. Marjorie kept space and time to paint. Duncan considered Marjorie a partner in the museum even though she was not directly involved in all purchasing and presentation decisions. To him, her influence was omnipresent. Although Duncan's writings on artists and art history were widely published, he chose not to provide much instruction for visitors to the museum. Instead, he combined signature methods of displaying art which live on at The Phillips Collection. Phillips had viewers in mind when he hung American art with European art—or art of the past with modern art, and he frequently rearranged works to stimulate fresh encounters. With unfettered access to archival material, author Pamela Carter-Birken argues that The Phillips Collection's relevancy comes from Duncan Phillips's commitment to providing optimal conditions for personal exploration of art. In-depth collecting of certain artists was one of Phillips's methods of encouraging independent thinking in viewers. Paintings by Pierre Bonnard, Arthur Dove, Georgia O'Keeffe, John Marin, Jacob Lawrence, and Mark Rothko provide testament to the power of America's first museum of modern art. Document 34: What Is the Social Significance of Modern Architecture in Mexico? / Juan O'Gorman Modern art can be confusing and intimidating—even ugly and blasphemous. And yet curator and art critic Daniel A. Siedell finds something else, something much deeper that resonates with the human experience. With over thirty essays on such diverse artists as Andy Warhol, Thomas Kinkade, Diego Velazquez, Robyn O'Neil, Claudia Alvarez, and Andrei Rublev, Siedell offers a highly personal approach to modern art that is informed by nearly twenty years of experience as a museum curator, art historian, and educator. Siedell combines his experience in the contemporary art world with a theological perspective that serves to deepen the experience of art, allowing the work of art to work as art and not covert philosophy or theology, or visual illustrations of ideas, meanings, and worldviews. *Who's Afraid of Modern Art?*

celebrates the surprising beauty of art that emerges from and embraces pain and suffering, if only we take the time to listen. Indeed, as Siedell reveals, a painting is much more than meets the eye. So, who's afraid of modern art? Siedell's answer might surprise you. Containing more than one thousand illustrations, many in full color, an extensive overview of the entire collection of The Museum of Modern Art includes works from all six of its departments--Painting and Sculpture, Drawings, Prints and Illustrated Books, Architecture and Design, Photography, and Film and Video. A selection of 125 paintings from the Museum of Modern Art in New York. The tender roots of Modern Art can be seen in the wild sea paintings of Turner, as early as the mid 19th Century, but it took the Impressionists and the Pre-Raphaelites to break the elite classical mode, until the final blows were dealt in the early 1900s by Kandinsky, Klee and Picasso. Modern Art was a reaction to the gathering pace of industrialisation of the late Victorian world, and the desire for art that looked forwards not behind to classical myth and legend. But once the beast of modernism had been unleashed it fragmented into many different forms, each of which are explored in this striking, heavily illustrated new book. *The Short Story of Art* is a pocket guide to key movements, works, themes and techniques – a new and innovative introduction to the subject of art. Simply constructed, the book explores 50 key works, from the wall paintings of Lascaux to Damien Hirst installations, and then links these to sections on art movements, themes and techniques. The design of the book allows the student or art enthusiast to easily navigate their way around key periods, artists and styles. Accessible and concise, it simplifies and explains the most important and influential concepts in art, and shows how they are connected. The book explains how, why and when art changed, who introduced certain things, what they were, where they were produced, and whether they matter. It demystifies artistic jargon, giving readers a thorough understanding and broad enjoyment of art. 'Susie Hodge has culled through hundreds of art movements to highlight and present 36 that illustrate transitions of art, its ideas, representations, characteristics, and production from Prehistoric times up to the dynamic shifts of the 1960s and '70s. As complex as art history is, this book is a welcome, succinct introduction to some classic Western masters.' Cindy Helm, *New York Journal of Books* 'Excellent introduction to the subject. A good quality book, tightly bound, and well illustrated.' – Colin, Amazon reviewer 'The Short Story of Art is an attractive volume that serves as a convenient introduction to major movements, works, themes, and techniques of Western art. The works within are featured more for their seminal or illustrative nature than their fame per se, so the "story" part of the title is apt. The cross referencing and "Other works by..." sections makes it clear that this book is encouraging the reader to explore art on his own.' –Tommy Grooms, Goodreads reviewer Catalog of an exhibition held at the Museum of Modern Art, New York, Sept. 28, 2010-Apr. 25, 2011. Edited by Janet Bishop, Corey Keller, Sarah Roberts. Foreword by Neal Benezra. Text by Gary Garrels, Henry Urbach, Sandra S. Phillips, et al. No other book on modern and contemporary art presents in as authoritative and concise a manner the ideas that underlie the diverse and radical developments of the last hundred years. In this new edition, an important essay, "Postmodernism and the Art of Identity", not only brings the story of modern art right

up to the present, but also introduces the unexpected development of returning to art the day-to-day meaning it may have lost, through engagement with issues raised in the representation of gender, sexuality, and AIDS. In other essays by some of the most internationally acclaimed writers on art, the extraordinary challenges of twentieth-century art are introduced and discussed with unparalleled lucidity, intelligence, and factual accuracy. An unexpected separation from his wife was meant to leave him with the space he needs to work composing film scores, but it has provided none of the peace of mind he needs to create. Guilty and restless, almost by chance he stumbles upon an art exhibit that will change his life. Based on a real piece of performance art that took place in 2010, the installation that the fictional Arky Levin discovers is inexplicably powerful. Visitors to the Museum of Modern Art sit across a table from the performance artist Marina Abramovi?, for as short or long a period of time as they choose. Although some go in skeptical, almost all leave moved. And the participants are not the only ones to find themselves changed by this unusual experience: Arky finds himself returning daily to watch others with Abramovi?. As the performance unfolds over the course of 75 days, so too does Arky. As he bonds with other people drawn to the exhibit, he slowly starts to understand what might be missing in his life and what he must do. Catesby Jones acquired an extraordinary collection of paintings, drawings, prints, and sculptures by some sixty artists working in Paris during the early twentieth century. Jones's collection of almost three hundred works, divided between two Virginia institutions after his death, is reunited here in an illustrated catalogue with a full-color checklist accompanied by entries on twenty-four of the artists. Some are the best-known figures of this crucial era (Matisse, Picasso, Braque, Masson, Lipchitz); others are now less familiar (Lurcat, Bauchant, Marcoussis). Considered together, they provide a comprehensive view of modern art in Paris up to World War II and bring Jones's legacy to a wide audience for the first time. Distributed for the Virginia Museum of Fine Arts "A provocative interpretation of the political and cultural history of the early cold war years. . . . By insisting that art, even art of the avant-garde, is part of the general culture, not autonomous or above it, he forces us to think differently not only about art and art history but about society itself."—*New York Times Book Review* Shedding fresh light on modern art beyond the West, this text introduces readers to artists, art movements, debates and theoretical positions of the modern era that continue to shape contemporary art worldwide. This book tells the story of Germany's rich, flourishing, and diversified world of art in the last decades of the nineteenth century--a world that has until recently been eclipsed by the events of the twentieth century. Basing her narrative on a close reading of contemporary periodicals, and lavishly complementing it with cartoons and other illustrations from these publications, Beth Irwin Lewis provides the first systematic, comprehensive study of that German art world. She focuses on how critics and the public responded to new forms of painting that emerged in the 1880s, when the explosive growth of art exhibitions supported by local governments across a recently united Germany was accompanied by skyrocketing attendance of a new mass public. Describing the rapid critical acceptance and dominance of the new modern art in the 1890s, Lewis analyzes these developments within a complex interweaving of social, cultural, and economic factors. Although critics had hoped for a unified new art for the new nation, the success of modern art fragmented the art world, as modern artists and their supporters turned away from the often unreceptive mass public of the great exhibitions. Lewis's approach through the popular journals reveals the public's growing alienation from modern artists and an increasing contempt for the public on the part of these artists and their supporters--all of which prefigured tensions in the contemporary art world. Her wide-ranging text examines not only the various ways art was promoted to and received by the public, but also anti-Semitism, the role of women artists, and changes in style of both art and criticism. Well documented, engagingly written, and vividly illustrated, this book will interest not only scholars and students but all readers interested in German cultural history and art history. "Superbly crafted little essays, Lewis Mumford's New Yorker pieces called 'The Art Galleries' well deserve this handsome republication. They offer supremely tasteful guided tours of the galleries and museums of Manhattan at the time when the canon of Western art, including modernism, was being secured, against a background of tension between abstraction and realism and between aestheticism and social commitment. The essays are a gift for our own troubled times from one of the great humane and versatile critics of the twentieth century; they offer the reassurance of urbanity, poise, and commitment to art as a primary social necessity."—Alan Trachtenberg, Neil Grey Emeritus Professor of English, Yale University Over 200 paintings, sculptures, photographs, and conceptual pieces trace the story of modern art's innovation and adventure.
