**Tip Toe Tiger** Nov 13 2019 Follow Tiger as he creeps through the jungle on an adventure. Whether you and your baby are at home or on the move, these are the ideal first soft cloth books for cot or pram play. Beautiful colorful artwork is printed on one side, and when flipped over a stunning illustrated narrative is revealed in bold line. Research has indicated that newborn babies love high-contrast images and respond well to them. This adorable series from Wee Gallery features bold illustrations along with simple words to help babies develop their vision and language skills. For added sensory effect, these soft cloth books also come with fascinating crinkle sounds.

**My First Signs** Apr 18 2020 Contains over forty key words based on American Sign Language. **First in Thirst** Sep 23 2020 Gatorade invented the sports drink 40 years ago, and it has been first in the marketplace (by a long shot) ever since. But it's more than just a thirst quencher and a dominant brand. First in Thirst is the story of a phenomenon that grew from the practice fields of college football into a true icon of the way we play, watch, and experience sports—from the Pee Wees to the pros. Published to coincide with the 40th anniversary of Gatorade's invention, First in Thirst is equally a sports story, from its invention and testing with the University of Florida Gators to the Sgatorade bath and its near-universal appeal to athletes, coaches and sports fans everywhere.

*Smart Couples Finish Rich, Canadian Edition* Jul 14 2022 Canadian Edition, revised and updated From first-time newlyweds to people on their second marriage, couples face an overwhelming task when it comes to money management. Internationally renowned financial advisor and bestselling author David Bach knows that it doesn't have to be this way. In Smart

Couples Finish Rich, he provides couples with easy-to-use tools that cover everything from credit-card management to investment advice to long-term care. From this updated, newly revised Canadian edition, couples will learn how to work together as a team to identify their core values and dreams, and to create a financial plan that will allow them to achieve security, provide for their family's future financial needs, and increase their income.

**You Are Not So Smart** Jun 20 2020 Explains how self-delusion is part of a person's psychological defense system, identifying common misconceptions people have on topics such as caffeine withdrawal, hindsight, and brand loyalty.

**The Play of Daniel Keyes' Flowers for Algernon** Aug 03 2021 The Heinemann Plays series offers contemporary drama and classic plays in durable classroom editions. Many have large casts and an equal mix of boy and girl parts. This play is a dramatization of Daniel Keyes's story about a retarded adult who desperately wants to be able to read and write.

**Baby Einstein (tm) My First Smart Pad(tm) Library** Jun 01 2021 Learn and play with this interactive set designed specially for little ones! 8 books filled with Baby Einstein friends come with a double-sided Smart Pad featuring 51 big, bright buttons. Read along in the books and press the Pad's buttons to explore early learning activities introducing the alphabet, spelling, shapes, music, colors, and animals.

Scale Smart Mar 30 2021 Scale Smart is an actionable guide to start and scale a startup, in India in the digital age. With lots of examples, live case studies and marketing breakdowns, it gives a startup, the road map to grow their business. It first identifies your marketing channels and then goes deeper into how to scale each of those channels. The book was created after interviewing over thirty successful founders (Ex: Bharat Matrimony, Practo, Byju, Slideshare, Redbus & 25 others) in the Indian startup ecosystem. Anirudh Narayan is a growth specialist who has helped over 1,000 aspiring entrepreneurs and 50 startups in the US, Latin America, Africa and Asia with launching their idea, reaching product-market fit and scale. His core specialties lie in user acquisition, funnel optimization, growth hacking and business development. Anirudh's previous experiences involve Growth at Rocket Internet, Shutterstock, Lean Startup Machine, Simplilearn & Upgrad as well as mentoring at accelerators like Numa. Anirudh currently helps entrepreneurs launch and scale their business through bootcamps, courses, consulting services and products through this company, Growth Spartan. Anirudh was recently featured among the top 500 growth hackers in the world.

How to Raise Your Credit Score Oct 13 2019 This book will teach you everything you need to know to improve your credit score.

**Mickey Mouse Clubhouse** Jan 20 2023

**Help Others Grow First** Dec 19 2022 The number one concern facing C-level executives is attracting and retaining great employees to fulfill their corporate vision and strategy. The revolving door dilemma, often called churn, is real. However, this dilemma does not have to be your new reality. There is a way to attract, retain, energize, and grow top-notch employees regardless of external economic or cultural conditions. The answer to blocking the revolving door syndrome is to help others grow first, practicing significant leadership and focusing on The Nine Essentials of Significant Leadership.

**Mastering Ethereum** Mar 18 2020 Ethereum represents the gateway to a worldwide,

decentralized computing paradigm. This platform enables you to run decentralized applications (DApps) and smart contracts that have no central points of failure or control, integrate with a payment network, and operate on an open blockchain. With this practical guide, Andreas M. Antonopoulos and Gavin Wood provide everything you need to know about building smart contracts and DApps on Ethereum and other virtual-machine blockchains. Discover why IBM, Microsoft, NASDAQ, and hundreds of other organizations are experimenting with Ethereum. This essential guide shows you how to develop the skills necessary to be an innovator in this growing and exciting new industry. Run an Ethereum client, create and transmit basic transactions, and program smart contracts Learn the essentials of public key cryptography, hashes, and digital signatures Understand how "wallets" hold digital keys that control funds and smart contracts Interact with Ethereum clients programmatically using JavaScript libraries and Remote Procedure Call interfaces Learn security best practices, design patterns, and anti-patterns with real-world examples Create tokens that represent assets, shares, votes, or access control rights Build decentralized applications using multiple peer-to-peer (P2P) components

**My Big Word Book (casebound)** Apr 11 2022 This Roger Priddy My Big Word Book is the perfect way to help your little one learn their essential first words. On the big, sturdy board pages, they'll discover bright, bold photographs of all kinds of things they'll recognize from around the home and their everyday experiences, all grouped into clear sections such as toys, clothes, mealtime and more. Each picture has its name written underneath, helping children to build key early vocabulary and start to develop word and picture association. A must-have for every toddler's first library!

Disney - Mickey, Minnie, Toy Story and More! - My First Smart Pad Oct 17 2022 Read, play, sing, and learn with Mickey, Minnie, Woody, Buzz, Moana and more! This 8-book library comes with a two-sided, talking electronic activity pad that includes hundreds of interactive learning activities related to the stories. Preschoolers will learn about the alphabet, numbers, spelling, counting, colors, and more!

**The World's Religions** Jan 28 2021 The World's Religions offers a fascinating insight into a wide range of faiths, their history and their followers. In the richly illustrated new edition of this popular book, religions are described through their symbols, rituals, followers, architecture and art. References, statistics, maps and pictures have been updated and added. The text has been thoroughly revised to highlight recent developments, such as the spread of Islam, African-American and Hispanic-American religious experience, and women priests.

Around the Farm Dec 15 2019 Put on your overalls and have a stroll Around The Farm in this amazing sound book! Your little one can press 30 different sound buttons while they read to bring the amazing art stylings of Eric Carle to life!

*Love at First* Nov 06 2021 “The most delightful cast of characters I've met in ages...a modern romance masterpiece.” —New York Times bestseller Christina Lauren “Constantly revealing new layers of lyricism...Love at First is poetry, then — sometimes an artful sonnet, other times halting free verse. But it's never anything short of miraculous.” —Entertainment Weekly, Grade A “At the end I was left with that warm, glowing love for humanity that is always what I'm chasing when I read this genre: the sense of togetherness, of hope, of even unsolvable problems feeling less impossible. Because a good romance lets you forgive the people on the page. A

great romance lets you forgive people in general — and feel that maybe they even deserve it.”—The New York Times BuzzFeed Books to Add to Your TBR Goodreads Hottest Romances of 2021 Frolic Best Books of Winter 2021 BookRiot Books for Coping with A COVID-19 Winter SmexyBooks Most Anticipated Books A Love So True Books Every Romance Fan Should Read A sparkling and tender novel from the acclaimed author of Love Lettering, full of bickering neighbors, surprise reunions, and the mysterious power of love that fans of Christina Lauren, Sarah Hogle, and Emily Henry will adore. Sixteen years ago, a teenaged Will Sterling saw—or rather, heard—the girl of his dreams. Standing beneath an apartment building balcony, he shared a perfect moment with a lovely, warm-voiced stranger. It’s a memory that’s never faded, though he’s put so much of his past behind him. Now an unexpected inheritance has brought Will back to that same address, where he plans to offload his new property and get back to his regular life as an overworked doctor. Instead, he encounters a woman, two balconies above, who’s uncannily familiar . . . No matter how surprised Nora Clarke is by her reaction to handsome, curious Will, or the whispered pre-dawn conversations they share, she won’t let his plans ruin her quirky, close-knit building. Bound by her loyalty to her adored grandmother, she sets out to foil his efforts with a little light sabotage. But beneath the surface of their feud is an undeniable connection. A balcony, a star-crossed couple, a fateful meeting—maybe it’s the kind of story that can’t work out in the end. Or maybe, it’s the perfect second chance . . .

“Gorgeously written.” —NPR “A superb cast of characters rounds out this sweet, slow-burn romance.” —Booklist “A Mary Balogh–style love story...The comforting rewrite of Romeo and Juliet you didn’t know you needed.” —Kirkus Reviews “Will and Nora’s chemistry and the quirky side characters keep the pages turning. Clayborn’s fans will be pleased.” —Publishers Weekly “Her beautiful prose is full of a softness and depth that lingers—passages beg to be reread and savored. Perfect for fans of Christina Lauren and Emily Henry, Love at First feels like a long, warm hug upon returning home.” —Shelf Awareness “A beautiful book and worth the painful beginnings...” —Smart Bitches, Trashy Books “A beautifully understated but gloriously romantic love story full of poignancy and tenderness.” —All About Romance “Clayborn remains one of my favorite authors, and I can’t wait to see what she will write next.” —Frolic

**IQ** Apr 30 2021 A resident of one of LA's toughest neighborhoods uses his blistering intellect to solve the crimes the LAPD ignores. East Long Beach. The LAPD is barely keeping up with the neighborhood's high crime rate. Murders go unsolved, lost children unrecovered. But someone from the neighborhood has taken it upon himself to help solve the cases the police can't or won't touch. They call him IQ. He's a loner and a high school dropout, his unassuming nature disguising a relentless determination and a fierce intelligence. He charges his clients whatever they can afford, which might be a set of tires or a homemade casserole. To get by, he's forced to take on clients that can pay. This time, it's a rap mogul whose life is in danger. As Isaiah investigates, he encounters a vengeful ex-wife, a crew of notorious cutthroats, a monstrous attack dog, and a hit man who even other hit men say is a lunatic. The deeper Isaiah digs, the more far reaching and dangerous the case becomes.

*Power Analysis Attacks* Jan 16 2020 Power analysis attacks allow the extraction of secret information from smart cards. Smart cards are used in many applications including banking,

mobile communications, pay TV, and electronic signatures. In all these applications, the security of the smart cards is of crucial importance. **Power Analysis Attacks: Revealing the Secrets of Smart Cards** is the first comprehensive treatment of power analysis attacks and countermeasures. Based on the principle that the only way to defend against power analysis attacks is to understand them, this book explains how power analysis attacks work. Using many examples, it discusses simple and differential power analysis as well as advanced techniques like template attacks. Furthermore, the authors provide an extensive discussion of countermeasures like shuffling, masking, and DPA-resistant logic styles. By analyzing the pros and cons of the different countermeasures, this volume allows practitioners to decide how to protect smart cards.

**Disney Princess** May 12 2022 Learn and play with this interactive set designed specially for little princesses! 8 books about Ariel, Belle, Cinderella, and more Princess friends are packed with a double-sided Smart Pad featuring 81 big, bright buttons. Read along in the books and press the Pad's buttons to explore early learning activities introducing the alphabet, numbers, spelling, counting, colors, sounds, and songs.

Extraterrestrial Dec 07 2021 Harvard's top astronomer lays out his controversial theory that our solar system was recently visited by advanced alien technology from a distant star

**The Smart First-Time Home Buyer's Guide** May 20 2020 Most first-time home-buyers have never gone through the stressful experience of buying a home, and they often have to learn the hard way when buying their first home, but by making only a tiny mistake during the home buying process, it can be extremely costly and frustrating.

**The Smart Enough City** Sep 16 2022 Why technology is not an end in itself, and how cities can be “smart enough,” using technology to promote democracy and equity. Smart cities, where technology is used to solve every problem, are hailed as futuristic urban utopias. We are promised that apps, algorithms, and artificial intelligence will relieve congestion, restore democracy, prevent crime, and improve public services. In *The Smart Enough City*, Ben Green warns against seeing the city only through the lens of technology; taking an exclusively technical view of urban life will lead to cities that appear smart but under the surface are rife with injustice and inequality. He proposes instead that cities strive to be “smart enough”: to embrace technology as a powerful tool when used in conjunction with other forms of social change—but not to value technology as an end in itself. In a technology-centric smart city, self-driving cars have the run of downtown and force out pedestrians, civic engagement is limited to requesting services through an app, police use algorithms to justify and perpetuate racist practices, and governments and private companies surveil public space to control behavior. Green describes smart city efforts gone wrong but also smart enough alternatives, attainable with the help of technology but not reducible to technology: a livable city, a democratic city, a just city, a responsible city, and an innovative city. By recognizing the complexity of urban life rather than merely seeing the city as something to optimize, these *Smart Enough Cities* successfully incorporate technology into a holistic vision of justice and equity.

**First Comes Like** Nov 25 2020 The author of *The Right Swipe* and *Girl Gone Viral* returns with a story about finding love in all the wrong inboxes... Beauty expert and influencer Jia Ahmed has her eye on the prize: conquering the internet today, the entire makeup industry tomorrow, and finally, finally proving herself to her big opinionated family. She has little time

for love, and even less time for the men in her private messages—until the day a certain international superstar slides into her DMs, and she falls hard and fast. There’s just one wrinkle: he has no idea who she is. The son of a powerful Bollywood family, soap opera star Dev Dixit is used to drama, but a strange woman who accuses him of wooing her online, well, that’s a new one. As much as he’d like to focus on his Hollywood fresh start, he can’t get Jia out of his head. Especially once he starts to suspect who might have used his famous name to catfish her... When paparazzi blast their private business into the public eye, Dev is happy to engage in some friendly fake dating to calm the gossips and to dazzle her family. But as the whole world swoons over their relationship, Jia can’t help but wonder: Can an online romance-turned-offline-fauxmance ever become love in real life?

**The Fourth Industrial Revolution** Feb 15 2020 World-renowned economist Klaus Schwab, Founder and Executive Chairman of the World Economic Forum, explains that we have an opportunity to shape the fourth industrial revolution, which will fundamentally alter how we live and work. Schwab argues that this revolution is different in scale, scope and complexity from any that have come before. Characterized by a range of new technologies that are fusing the physical, digital and biological worlds, the developments are affecting all disciplines, economies, industries and governments, and even challenging ideas about what it means to be human. Artificial intelligence is already all around us, from supercomputers, drones and virtual assistants to 3D printing, DNA sequencing, smart thermostats, wearable sensors and microchips smaller than a grain of sand. But this is just the beginning: nanomaterials 200 times stronger than steel and a million times thinner than a strand of hair and the first transplant of a 3D printed liver are already in development. Imagine “smart factories” in which global systems of manufacturing are coordinated virtually, or implantable mobile phones made of biosynthetic materials. The fourth industrial revolution, says Schwab, is more significant, and its ramifications more profound, than in any prior period of human history. He outlines the key technologies driving this revolution and discusses the major impacts expected on government, business, civil society and individuals. Schwab also offers bold ideas on how to harness these changes and shape a better future—one in which technology empowers people rather than replaces them; progress serves society rather than disrupts it; and in which innovators respect moral and ethical boundaries rather than cross them. We all have the opportunity to contribute to developing new frameworks that advance progress.

**One to Watch** Jul 22 2020 NATIONAL BESTSELLER • Real love . . . as seen on TV. A plus-size bachelorette brings a fresh look to a reality show in this razor-sharp, “divinely witty” (Entertainment Weekly) debut. “Effortlessly fun and clever . . . I found the tension impeccable . . . and that made my reading experience incredibly propulsive. Read it in a day and a half.”—Emily Henry, #1 bestselling author of *Beach Read* and *The People We Meet on Vacation* NAMED ONE OF THE BEST BOOKS OF THE YEAR BY Time • NPR • Marie Claire • Mashable Bea Schumacher is a devastatingly stylish plus-size fashion blogger who has amazing friends, a devoted family, legions of Insta followers—and a massively broken heart. Like the rest of America, Bea indulges in her weekly obsession: the hit reality show *Main Squeeze*. The fantasy dates! The kiss-off rejections! The surprising amount of guys named Chad! But Bea is sick and tired of the lack of body diversity on the show. Since when is being a size zero a

prerequisite for getting engaged on television? Just when Bea has sworn off dating altogether, she gets an intriguing call: Main Squeeze wants her to be its next star, surrounded by men vying for her affections. Bea agrees, on one condition—under no circumstances will she actually fall in love. She’s in this to supercharge her career, subvert harmful beauty standards, inspire women across America, and get a free hot air balloon ride. That’s it. But when the cameras start rolling, Bea realizes things are more complicated than she anticipated. She’s in a whirlwind of sumptuous couture, Internet culture wars, sexy suitors, and an opportunity (or two, or five) to find messy, real-life love in the midst of a made-for-TV fairy tale. In this joyful, wickedly observant debut, Bea has to decide whether it might just be worth trusting these men—and herself—for a chance to live happily ever after.

**Super Smart First Grade Wkbk** Jun 13 2022

**Eric Carle** Feb 26 2021 This electronic activity pad and 8-book library teaches alphabet, spelling, opposites, animal habitats, sounds, and sizes featuring the beautiful art of Eric Carle

Start with Why Aug 15 2022 The inspirational bestseller that ignited a movement and asked us to find our WHY Discover the book that is captivating millions on TikTok and that served as the basis for one of the most popular TED Talks of all time—with more than 56 million views and counting. Over a decade ago, Simon Sinek started a movement that inspired millions to demand purpose at work, to ask what was the WHY of their organization. Since then, millions have been touched by the power of his ideas, and these ideas remain as relevant and timely as ever. **START WITH WHY** asks (and answers) the questions: why are some people and organizations more innovative, more influential, and more profitable than others? Why do some command greater loyalty from customers and employees alike? Even among the successful, why are so few able to repeat their success over and over? People like Martin Luther King Jr., Steve Jobs, and the Wright Brothers had little in common, but they all started with WHY. They realized that people won't truly buy into a product, service, movement, or idea until they understand the WHY behind it. **START WITH WHY** shows that the leaders who have had the greatest influence in the world all think, act and communicate the same way—and it's the opposite of what everyone else does. Sinek calls this powerful idea The Golden Circle, and it provides a framework upon which organizations can be built, movements can be led, and people can be inspired. And it all starts with WHY.

What Makes Us Smart Aug 23 2020 Introduction: are we smart? -- Rational illusions -- Structure and origins of inductive bias -- Learning from others -- Good questions -- How to never be wrong -- Seeing patterns -- Are we consistent? -- Celestial teapots and flying spaghetti monsters -- The frugal brain -- Language design -- The uses of randomness -- Conclusion: what makes us smart.

*Smart Kids: First Words* Nov 18 2022 This early learning book utilizes split pages that open up to reveal spectacular images, along with simple questions and hidden pictures, to encourage interactive learning and provide a fun way for toddlers to enhance their vocabulary. Full-color illustrations.

*Clarity First: How Smart Leaders and Organizations Achieve Outstanding Performance* Feb 21 2023 Award-winning business performance improvement and Lean management expert Karen Martin diagnoses a ubiquitous business management and leadership problem—the lack of

clarity—and outlines specific actions to dramatically improve organizational performance. Through her global consulting projects, keynote speeches, and work with thousands of leaders, Karen has seen first-hand how a pervasive lack of clarity strangles business performance and erodes employee engagement. Ambiguity is the corporate default state, a condition so prevalent that “tolerance for ambiguity” has become a clichéd job requirement. It doesn’t have to be this way. In *Clarity First*, Karen provides methods and insights for achieving clarity to unleash potential, innovate at higher levels, and solve the problems that matter to deliver outstanding business results. Both a visionary road map and practical guide, this book will help leaders:

- Identify and communicate the organization’s true purpose
- Set achievable priorities
- Deliver greater customer value through more efficient processes
- Provide greater transparency about true versus assumed performance
- Build strong problem-solving and critical thinking capabilities throughout the organization
- Develop personal clarity to be a more direct, purposeful, and successful leader

Eliminating ambiguity is the first step for leaders and organizations to achieve strategic goals. Learn how to gain the clarity needed to make better decisions, lead more effectively, and boost organizational performance. When it comes to leading an outstanding organization, every great leader needs *Clarity First*.

*12 Seconds of Silence* Oct 05 2021 The riveting story of the American scientists, tinkerers, and nerds who solved one of the biggest puzzles of World War II--and developed one of the most powerful weapons of the war *12 Seconds of Silence* is the remarkable, lost story of how a ragtag group of American scientists overcame one of the toughest problems of World War II: shooting things out of the sky. Working in a secretive organization known as Section T, a team of physicists, engineers, and everyday Joes and Janes took on a devilish challenge. To help the Allies knock airplanes out of the air, they created one of the world's first "smart weapons." Against overwhelming odds and in a race against time, mustering every scrap of resource, ingenuity, and insight, the scientists of Section T would eventually save countless lives, rescue the city of London from the onslaught of a Nazi superweapon, and help bring about the Axis defeat. A holy grail sought after by Allied and Axis powers alike, their unlikely innovation ranks with the atomic bomb as one of the most revolutionary technologies of the Second World War. Until now, their tale was largely untold. For fans of Erik Larson and Ben Macintyre, set amidst the fog of espionage, dueling spies, and the dawn of an age when science would determine the fate of the world, *12 Seconds of Silence* is a tribute to the extraordinary wartime mobilization of American science and the ultimate can-do story.

*Smart First Touches* Mar 10 2022 While the study of tactics and strategies in soccer is important in today's game, the bedrock of the sport remains the skill of the players. Without skill, even the perfect tactical plan is useless. This book offers a proven method of developing ball skills, the first touch and two footed players. The repetition of the movements makes the skills almost automatic in actual game situations, allowing the player to play with his head up and focus on the tactical solution rather than controlling the ball at his feet. Focus is on developing skilful players who are able to perform on both sides of the body in match conditions.

***Strong and Smart - Towards a Pedagogy for Emancipation*** Jul 02 2021 *Strong and Smart – Towards a Pedagogy for Emancipation* tells the story of how Dr Chris Sarra overcame low expectations for his future to become an educator who has sought to change the tide of low

expectations for other Indigenous students. The book draws upon Roy Bhaskar's theory of Critical Realism to demonstrate how Indigenous people have agency and can take control of their own emancipation. Sarra shows that it is important for Indigenous students to have confidence in their own strength and ability to be as "able" as any other group within society. The book also compares and contrasts White perceptions of what it is to be Indigenous and Indigenous views of what it is to be an Aboriginal Australian. The book calls for Indigenous Australians to radically transform and not simply reproduce the identity that Mainstream White Australia has sought to foster for them. Here the book explores in what ways Aboriginal and Torres Strait Islander people are "othered" by White Australians. Sarra seeks to advance the novel position that it is OK to be other to White Australia. The question becomes, "which other?" The Indigenous Student should not be treated as the Feared and/or Despised Other, nor should they be coerced into wholly assimilating into White culture.

**Smart Practice Workbook: Fifth Grade** Sep 04 2021 Practice makes perfect! This large collection of fun and engaging practice pages is designed to help students master essential skills in reading, writing, vocabulary, math, and more. With more than 300 skill-building practice pages, students are well on their way to succeed in school! Includes ready-to-use flash cards for extra skills practice. For use with Grade 5.

The Cult of Smart Dec 27 2020 Named one of Vulture's Top 10 Best Books of 2020! Leftist firebrand Fredrik deBoer exposes the lie at the heart of our educational system and demands top-to-bottom reform. Everyone agrees that education is the key to creating a more just and equal world, and that our schools are broken and failing. Proposed reforms variously target incompetent teachers, corrupt union practices, or outdated curricula, but no one acknowledges a scientifically-proven fact that we all understand intuitively: Academic potential varies between individuals, and cannot be dramatically improved. In *The Cult of Smart*, educator and outspoken leftist Fredrik deBoer exposes this omission as the central flaw of our entire society, which has created and perpetuated an unjust class structure based on intellectual ability. Since cognitive talent varies from person to person, our education system can never create equal opportunity for all. Instead, it teaches our children that hierarchy and competition are natural, and that human value should be based on intelligence. These ideas are counter to everything that the left believes, but until they acknowledge the existence of individual cognitive differences, progressives remain complicit in keeping the status quo in place. This passionate, voice-driven manifesto demands that we embrace a new goal for education: equality of outcomes. We must create a world that has a place for everyone, not just the academically talented. But we'll never achieve this dream until the *Cult of Smart* is destroyed.

Out from Under You Oct 25 2020 "Love is an earthquake. It comes when you least expect it. It rips the ground clear away. Right out from under you." The day Lia Smart met Grayson Walker, eight years ago, was the day she fell helplessly in love with him. Coincidentally, it was the same day Grayson fell in love with someone else: Lia's smarter, sexier, superior-in-every-way older sister, Alex. Now, nearly a decade later, Alex and Grayson are long over and twenty-two-year-old Lia has finally managed to forget all those lonely nights she spent pining after her sister's boyfriend. But when Grayson unexpectedly arrives back in town with Alex for Labor Day weekend and the two announce that they're not only back together but engaged, all the feelings

that Lia buried suddenly come bubbling back to the surface. But Lia is no longer the awkward, gangly tomboy she was at fourteen. Far from it. And Grayson is conflicted by the lustful thoughts he's now having for her. He knows he could never act on those thoughts, however. Grayson has always prided himself on being one of the "good guys." But as the weekend wears on, he's finding this new grown-up version of Lia more and more impossible to resist.

*Proceedings of First International Conference on Smart System, Innovations and Computing*  
Jan 08 2022 The edited volume contains original papers contributed to 1st International Conference on Smart System, Innovations and Computing (SSIC 2017) by researchers from different countries. The contributions focuses on two main areas, i.e. Smart Systems Innovations which includes applications for smart cities, smart grid, social computing and privacy challenges with their theory, specification, design, performance, and system building. And second Computing of Complex Solutions which includes algorithms, security solutions, communication and networking approaches. The volume provides a snapshot of current progress in related areas and a glimpse of future possibilities. This volume is useful for researchers, Ph.D. students, and professionals working in the core areas of smart systems, innovations and computing.

**First European Conference on Smart Structures and Materials, Proceedings of the INT Conference held in Glasgow, 12-14 May 1992** Feb 09 2022 First European Conference on Smart Structures and Materials provides a detailed review of developments and applications in the exciting area of smart structures and materials. Topics covered include polymer chemistry, materials research, advanced sensor technology, signal processing, and innovative approaches to control and actuation. These invited, contributed, and poster papers are written by many of the leading international researchers in this rapidly developing area. This book will be invaluable reading for researchers in all aspects of smart materials and structures, a subject encompassing aerospace technology, civil and mechanical engineering, biomedicine, and component manufacture.
