No Barber Left Behind (NBLB) was created to fill the void for barbers who want to do more than just cut hair. Cutting hair is what got us started, but there is so much more to the barbering business than just giving a crispy shapeup, a fresh design, or a nice haircut. Either you already have the barbering part down packed or you are on your way, but are you business savvy? Most of us don't have much or any college experience, so NBLB will be a Barbering 101 course, like a Barbering Business for Dummies book, to help us make the most out of this billion-dollar beauty industry. Most things in the beauty industry are stylist or cosmetology influenced, not NBLB. Even though a lot of the business knowledge can be used by stylists, this book is intended to ensure that no barber gets left behind. NBLB was designed to answer the most common questions all new barbers have when it comes to getting started. Like how to advertise, how to build and maintain a healthy clientele, and how to make money from behind the chair. NBLB was also designed for the veteran barber who could use knowledge on business management and incorporating your business. This book can be used as the barbers' bible; it will cover all aspects of the barber business, so take notes, pay attention, and enjoy. Her powers help her give great haircuts - she sees into customers' minds and knows exactly what styles they want. Things are steady until one

day, while giving a strange man a high-and-tight, the image Danica sees is of a dead body. What Danica lacks in detective training, she makes up for in stubbornness. She takes on the role of amateur detective only to sink deeper into the muddy mystery, with each clue dragging her further into the weird underbelly of Los Angeles. Fighting off unpaid bills, attempts on her life and dangerous family squabbles, Danica gets tangled up trying to solve the murder and discover how it connects to the cops, a student newspaper, and an old man who calls himself "the Mayor of Bel Air." The twenty-first century has seen the emergence of a new style of man: the metrosexual. Overwhelmingly straight, white, and wealthy, these impeccably coiffed urban professionals spend big money on everything from facials to pedicures, all part of a multi-billion-dollar male grooming industry. Yet as this innovative study reveals, even as the industry encourages men to invest more in their appearance, it still relies on women to do much of the work. Styling Masculinity investigates how men's beauty salons have persuaded their clientele to regard them as masculine spaces. To answer this question, sociologist Kristen Barber goes inside Adonis and The Executive, two upscale men's salons in Southern California. Conducting detailed observations and extensive interviews with both customers and employees, she shows how female salon workers not only perform the physical labor of snipping, tweezing, waxing, and exfoliating, but also perform the emotional labor of pampering their clients and pumping up their masculine egos. Letting salon employees tell their own stories, Barber not only documents occasions when these workers are objectified and demeaned, but also explores how their jobs allow for creativity and confer a degree of professional dignity. In the process, she traces the vast network of economic and social relations that undergird the burgeoning male beauty industry. A fun and instructive guide to the most popular men's hairstyles of the 20th century The Barber Book is a fun guide to the most popular men's hairstyles of the 20th century, including quirky line drawings to achieve the 'total look' and instructions on how to cut each style. Packed with information this smart handbook uses quirky illustrations and vintage photographs to explore the most popular hairstyles of the 20th century from the undercut and the afro to the classic Madison Avenue look. With a focus on personalities, culture and fashions and cultural events that inspired each look, the book opens with an illustrated introduction exploring the most popular styles of the 1940s, 50s and 60s through archival photography. The book includes a brand new directory of the world's finest barber shops.
